Integrated Web-Based Grants Management Solution

Solix Grant Hub provides an end-to-end solution to streamline federal and state grant management. With customized logic to manage grants at the local agency level (e.g., county, provider, service location), we help our clients improve cash flow, optimize federal revenue recovery and compliance, implement policies and regulations, and adhere to financial reporting best practices for Health & Human Services (HHS) agencies.

Client-Focused Policy Experts

The Solix team has successfully deployed the **Solix Grant Hub** in a midwestern state with 350 participating local agencies. Our technology platform is fully supported by our highly experienced policy experts. We deployed an industry-leading model including annual User Group sessions and User Acceptance Testing with agency representatives, coupled with system training, to ensure the solution design incorporated operational flexibility for agencies while achieving compliance with state and federal regulations and directives.

Scalable and Secure Architecture

Solix Grant Hub utilizes a modular design and cloud native architecture that can be deployed to the client tenant or hosted by Solix and protected by an end-to-end Cybersecurity framework.

Clients receive access to real-time data, analytics, dashboards, and reports. This information is used to drive continuous improvement, support decision making, manage financial transactions, and achieve program oversight.
